# >>> History

**Cultural y Deportiva Leonesa** is one of **the most historical** professional clubs in Spain over **100 years old**.

The first official game for the club was on August 5th, 1923.

The club also possesses **one of the most powerful and successful youth systems** in Spain and competes in the highest division for each age group against the best clubs like FC Barcelona, Real Madrid CF, Valencia CF, Athletic de Bilbao, Villarreal CF, Sevilla FC, among many others.

Our Youth System follows a pyramidal structure of development with players from **4 to 24 years old**, being the reserve team and first team the last two steps in this club's pyramid and the entrance to professionalism. The club has competed in all Professional Divisions of Spanish Soccer, including First and Second Division for many years.

The club has competed in **La Liga Hypermotion** and **1st RFEF** (2nd and 3rd Spanish National league), and has been considered one of the best teams in 1st RFEF division. This position provides a unique and exclusive accessibility and exposure to professional soccer for all our players in the youth system.

# >>> Location

The city of **León** has a population of more than 200.000 people. It is located in the north-west of Spain, **less than 2 hours from the Capital, Madrid.**

Its location is strategical since it is close to many Spanish natural paradises and also major cities. This perfect combination between metropolis and nature makes León one of the **best considered cities to live in Spain.**

Its significant importance in Spanish History can be noticed in every corner of the city given its magical architecture and important monuments.

León is forged not only by its past but also by its present. It stands as one of Spain's most developed and trend-setting cities, thanks to its museums, universities, and vibrant culinary and sports scenes. # >>> Philosophy

The main difference with our International Academy is the actual **integration of the player within the Club's structure**. Our players do not only train under our methodology, but they also have the opportunity to **join the club's competitive teams and progress** within a professional structure based on their performance, adaptation, and growth.
