

PROYECTO VICTORIA  
REAL RACING CLUB

# RACING PROSEASON

## OBJECTIVES

The International Team represents the essence of the Racing model: to develop footballers with talent and, above all, people with values.

The vision of the program is to offer young people from all over the world the opportunity to grow in a professional and human environment, where learning goes beyond the football pitch.

The fundamental pillar of this project is the Proyecto Victoria (Victory Project), the educational and social initiative of Real Racing Club that guarantees a safe, educational, and responsible environment for all minors involved in football.

This program complies with Organic Law 8/2021 (LOPVI) and reflects our commitment to protection, comprehensive training, and player well-being.

In this program, the Proyecto Victoria is applied transversally through:

- Value-based education.
- Comprehensive education: academic performance is just as important as, or even more important than, athletic performance.
- Safe environment: well-being protocols, personal tutoring, and psychological support.
- Continuous support: daily supervision by club staff and academic tutors.
- Spaces for listening and personal development to foster trust, empathy, and maturity.

## ACADEMIC STRUCTURE

In collaboration with academic institutions, players will enroll in their educational system and attend classes in person.

- Classrooms set up at Mi Campus Residence.
- Daily tutoring and follow-up.
- Support from the club to assist players with school enrollment procedures.

Thus, players continue their official studies without interrupting their football development.

---

## SPORTS STRUCTURE

Depending on the number of players enrolled in the program, we offer two scenarios:

### SCENARIO 1:

If fewer than 15 players enroll, they will be evaluated by the club's coaches to join our academy teams or affiliate clubs' youth systems in Cantabria.

### SCENARIO 2:

If 15 or more players enroll, the possibility of creating an international team representing the club will be considered, competing against international academies from other clubs.

# METHODOLOGY & VALUES: PROJECT VICTORIA

All activities take place under Project Victoria, Real Racing Club's social and educational framework that ensures safety, personal care, and educational guidance for young players. This philosophy places equal importance on personal development and athletic excellence, promoting: respect, responsibility, and empathy as fundamental values of the Racing identity.

PROYECTO VICTORIA  
REAL RACING CLUB

## LIFE IN SANTANDER

Players will stay at Mi Campus Residence, with full-board accommodation.

They will have access to:

- 24-hour supervision and assistance.
- Dining hall, laundry, transportation, and rest areas.
- Access to Futbox for conditioning sessions and individual technical training.

---

## METHODOLOGY AND TECHNOLOGY

The project applies to Real Racing Club's official methodology, with an educational and developmental focus.

- Academic monitoring.
- Periodic evaluations.
- Use the Racing 360o app to monitor each player's athletic, nutritional, psychological, and physical progress.
- Full integration under the values of the Proyecto Victoria.

---

## PRICE AND CONDITIONS

Monthly fee: €2,800.

Duration: September to June (10 months).

Limited spots are available.

## The program includes:

- Full accommodation at Mi Campus Santander.
- Full board (breakfast, lunch, and dinner).
- Internal transport to training sessions and activities.
- Complete official Real Racing Club clothing kit.
- Private medical insurance with ASISA.
- Daily training sessions following the official Racing methodology.
- Conditioning sessions at Futbox Santander.
- Tickets for all first-team home matches.
- Trips to matches and scheduled sports events.
- Progress monitoring via the Racing 360o app.

**Education in collaboration with academic institutions. Full integration within the framework of the Project Victoria.**

## DIFFERENTIAL VALUE

We offer a program in northern Spain that combines professional football, international education, and personal development, all built on integral values.

## FINAL OBJECTIVE

The goal is for each player not only to improve as an athlete but also to have a transformative experience: learning to compete, study, and coexist under the principles that define Real Racing Club:  
Effort, respect, humility, teamwork, and passion.
